

POST SYMPOSIUM TOUR 4 ::: PLITVICE NATIONAL PARK

About

Our tour takes us through the picturesque landscape of the Dalmatian and Lika hinterland all the way to the center of Plitvice Lakes, a National Park that is considered to be one of the most beautiful natural phenomena in the world. Sixteen lakes, situated in a thick forest, are connected by 92 waterfalls and they cascade down the Korana River, forming the unique surroundings. Among the particular attractions are several caves and the rich diversity of flora and fauna. The Plitvice Lakes were declared a national park in 1949, and since 1979 have been under the UNESCO protection. The tour of the park lasts about two and a half hours and it includes a boat trip on the Lake Kozjak. After touring the lakes, there will be enough free time for lunch or your own activities.

Highlights

- String of 16 lakes, constantly changing colors
- Connect yourself with nature rich with animal and plant life
